

Apply for and activate DigiD

Do you live abroad or in the Caribbean and do you not have a DigiD? Or does your DigiD no longer work? You can apply for a (new) DigiD from abroad or the Caribbean. You need to have Dutch nationality or the nationality of an EU/EEA country. You also need to have a Dutch citizen service number (burgerservicenummer or bsn).

Go to netherlandsworldwide.nl/digid-abroad and go through the following steps:

Step 1

Apply for a DigiD. You will receive a service desk code via e-mail and SMS.

Step 2

Use the service desk code to make an appointment to collect your DigiD activation code at a DigiD service desk near you.
You can also collect your activation code via video call.

Step 3

Use the activation code to activate your DigiD.

Step 4

Download and activate the DigiD app. This is the easiest way to log in safely.

Have you gone through all the steps? Now you can log in to Mijn DUO.

More information

Do you want to learn more about the benefits of Mijn DUO? Then check out duo.nl/antillen. Do you have questions about applying for DigiD or activating it? Please contact Netherlands Worldwide.
